

TIGRON

auma[®]
Solutions for a world in motion

TIGRON

New operation concept

Combi-Switch: User-friendly even when wearing gloves.

Internal current buffer

Status indications: Transmission to DCS and indication on the display in case of power failure

Combined conical joints

Easy opening and closing of flameproof housing

Separately mounted controls

Easy access to local controls for actuators mounted in confined spaces

Commissioning Assistant

Ready for use – fast, simple, and safe
